PROJECTS

1. SiteSentry

Tech Stack: Typescript , Node.js, Express.js, React.js, TailwindCSS.

Description:

- Developed a web monitoring system that ensures website availability.
- Continuously checks website status and sends email notifications if a site goes down.
- Designed with a resilient backend to handle multiple URLs and deliver prompt alerts.
- **Link to Project:** https://github.com/Abhi200206/siteSentry

2. InsightInk

Tech Stack: TypeScript, React.js, Tailwind CSS, heno.js.

Description:

- Created a blogging platform for users to write and publish blogs.
- Integrated serverless architecture for scalable and efficient backend operations.
- Ensured responsive design and seamless user experience.

Link to Project: https://github.com/Abhi200206/InsightInk

Live Link: https://insight-ink-mu.vercel.app/

3. PullSurge

Tech Stack: TypeScript, React.js, Tailwind CSS.

Description:

- Developed a testing platform for APIs to facilitate HTTP and WebSocket connection testing.
- Simplified API debugging and streamlined testing workflows for developers.
- Designed with a user-friendly interface for efficient testing operations.

Link to Project: https://github.com/Abhi200206/PullSurge

4. HyperWallet

Tech Stack: JavaScript, React.js, Node.js, MongoDB, Express.js.

Description:

- Built a secure wallet application for safe money transfers between users.
- Implemented robust backend to handle transactions and maintain data integrity.
- Ensured security measures and user authentication for transaction safety.

Link to Project: https://github.com/Abhi200206/Hyper-wallet

SKILLS

- Javascript
- C++
- Node.js
- Express.js
- React.js
- postgreSQL
- MongoDB
- Git
- npm
- prisma ORM
- Recoil.js
- Tailwind css
- java

EDUCATION

Bachelor of technology in computer science and engineering

Kakatiya Institute of Technology and Science warangal, Telangana
GPA: 7.83
06/2021 - 06/2025

TRAINING PROGRAMS

GirlScript Summer of Code (GSSOC)

Contributed to open-source projects as part of the GirlScript Summer of Code program. Successfully made my first pull request, demonstrating collaboration and code contribution skills. Gained experience in version control, code reviews, and open-source community best practices.
